Discount Discontent?

Major mall stores report sluggish sales resulting in deeper price discounts for jittery summer shoppers who seem to be guarding their nickels and dimes closer. The International Council of Shopping Centers' (ICSC) index of June retail sales rose three percent - the low end of its growth forecast that ranged from three to four percent. But that's compared with a 5.1 percent decline in June 2009.

The figures are based on revenue at stores open at least a year and are a key indicator of retailers' health. After ramping up spending surprisingly in the first quarter, shoppers have hunkered down since April, apparently going out to stores only to buy necessities. The volatile economic environment had made business choppy from week to week. Economists don't see that changing until American businesses start making significant hiring.

HHS provides \$390.5 million to improve hospital preparedness

North Dakota is receiving a \$1,254,791 Hospital Preparedness grant for 2010. The U.S. Department of Health and Human Resources will provide the funds to enhance community resilience by increasing the ability of hospitals and health care facilities to respond to public health emergencies. These can include natural disasters, disease outbreaks or acts of terrorism.

North Dakota ranks among the smallest percentile of grant amounts with California at the top of the list receiving \$31,967,442. Florida will be granted \$21,973,177.

Ag Secretary Vilsack announces funding

Agriculture Secretary Tom Vilsack announces North Dakota will receive funding through USDA programs to promote increased production of biofuel and bioenergy.

"This funding," he said, "will help the nation's advanced biofuel industry produce energy from sustainable rural economies across the nation."

In North Dakota, the Archer Daniels Midland Company will be allocated \$385,062.16. Payments are based on the amount of biofuels a recipient produces from renewable biomass, other than corn kernel starch.

Berkshire not a sure bet

An analyst is encouraging investors to sell shares of Warren Buffett's Berkshire Hathaway because of the economy. Stifel Nicolaus analyst, Meyer Shields, made the recommendation saying the economy may weaken for the rest of the year and hurt demand for its businesses that rely on consumer spending.

Berkshire owns clothing, furniture, jewelry and building materials operations. Its insurance businesses generated more than half the company's \$8.1 billion profit last year.

Shields says the value of Berkshire's derivative contracts, which are tied to several stock market indexes, could fall if the economy falters. Berkshire's Class B shares dropped 58 cents to \$79.34 in recent midday trading activities.

EERC to sponsor Biomass '10 Workshop, July 20-21

by Lin Smithwick

Biomass feedstocks will be among the several topics discussed during the Energy and Environmental Research Center's (EERC) renewable power, fuels and chemicals workshop at the Alerus Center in Grand Forks.

Chris J. Zygarlicke, Deputy Associate Director for Research at EERC, said, "Interest, especially in the Plains states, is at an all-time high in utilizing biomass as a feedstock to supplant a portion of current U.S. Energy needs." He explains, "Farm-

Chris Zygarlicke

lands throughout the Dakotas can grow soybeans, canola, switchgrass or varieties or prairie grasses...communities are eager to learn how to better utilize these renewable domestic biomass feedstocks."

Dr. Gerald Groenewold, EERC director, will give a welcome address at 8:30 a.m. Tuesday, July 20. Zygarlicke, who is an EERC session chair, will open the event with an overview of biomass trends and opportunities. For a complete schedule of speakers and events, go to www.undeerc.org/biomass10/agenda.

Tuesday morning programs will

Gerald Groenewold

include: State of New technologies for Green Diesel and Jet Fuel from Bio-based Feedstocks Challenges to large-Scale Renewable Energy and Biorefineries Catalytic Approaches for Biofuels within the Energy Frontier Research Center at Argonne National Laboratory Biofuels and the Future of Corn-Based Ethanol The State of Biomass Utilization for Power in Manitoba The role of Public Affairs Management for Biosystems.

Tuesday's keynote address at 11:50 a.m., will be presented by Gov. John Hoeven, who is focusing on energy as one of his six pillars of growth for North Dakota. Hoeven continues to promote his EmpowerND, the state's first multi-resource energy policy, which he initiated in 2002. This is part of North Dakota's comprehensive economic development strategic plan.

Biomass experts from across the United States will conduct in-depth discussions on a variety of topics during the two-day event.

The major feedstocks programs will take place Tuesday afternoon starting at 1:40 p.m. With EERC session chair Bruce Folkedahl giv-

ing the introductory talk.

Wednesday's activities will begin in the morning with a session on biofuels. The afternoon session will be on biomass for chemicals, heat and power.

Throughout the two-day event, several exhibitions will be available to those attending the conference.

Zygarlicke points out that this event is the region's only International Biomass Workshop. "We are pleased to be able to present a workshop of this caliber. Biomass is no longer a long-range option for United States energy needs. It is a significant player." He adds,

Gov. John Hoeven

"Biomass has many near-term uses now, as seen in the ethanol and biodiesel industries, and holds hope as the largest global sustainable and renewable energy resource."

The workshop is designed to provide information and resources for industry representatives, researchers, farmers and landowners, utility employees and management, community and economic developers, financial organizations and investors, and government agency employees from the local, state and federal sectors.

Overview of Biomass Energy

Biomass is the organic matter in trees, agricultural crops and other living plant material. It is made up of carbohydrates - organic compounds that are formed in growing plantlike. Ever since the earliest inhabitants of the region burned wood in their campfires for heat, biomass has been a source of energy for meeting human needs.

Biomass is solar energy stored in organic matter. As trees and plants grow, the process of photosynthesis uses energy from the sun to convert carbon dioxide into carbohydrates (sugars, starches and cellulose). Carbohydrates are the organic compounds that make up biomass. When plants die, the process of decay releases the energy stored in carbohydrates and discharges carbon dioxide back into the atmosphere. Biomass is a renewable energy source because the growth of new plants and trees replenishes the supply.

Over millions of years, natural processes in the earth trans-

formed organic matter into today's fossil fuels: oil, natural gas and coal. Fossil fuels are not renewable. The oil, natural gas and coal we use today are gone forever.

The use of biomass for energy causes no net increase in carbon dioxide emissions to the atmosphere. As trees and plants grow, they remove carbon from the atmosphere through photosynthesis. If the amount of new biomass growth balances the biomass used for energy, bioenergy is carbon dioxide "neutral." That is, the use of biomass for energy does not increase carbon dioxide emissions and does not contribute to the risk of global climate change. In addition, using biomass to produce energy is often a way to dispose of waste materials that otherwise would create environmental risks.

For more information, go to: www.oregon.gov/ENERGY/RENEW/Biomass/Environment.shtml.

Dorgan's favorite cookie stop open again

Photos by Amanda Gades/The Reporter

Pictured are (from left) Sen. Dorgan, Lynette Stephans, baker at the restaurant, and Allen Lovro, Tower City Fuel Stop general manager. Dorgan told stories of his experiences with the old plaza during his visit to the business. "A few years ago, I was traveling on my way to Fargo and I didn't have a cell phone. There was an urgent phone call for me from Washington and my staff knew I would be stopping at the plaza to get cookies. They called the plaza and left a message. I found out about it immediately when I got to the plaza."

Sen. Dorgan purchases ginger creams from Courtney Richman, 2009 Maple Valley graduate, during his July 7 visit to the fuel stop. "I love this place. I used to stop at the old plaza all the time for cookies," said Dorgan.

The old plaza closed February 2009 and this new restaurant and convenience store opened May.

Bobcat to add more than 100 jobs at Gwinner plant

Bobcat has announced that more than 100 hourly positions are being added at the company's primary production facility in Gwinner, between now and August. Bobcat is currently accepting applications.

"We have finished transitioning all production lines to Gwinner and are experiencing growth in certain areas of our business," said Rich Goldsbury, president of Bobcat Americas. "It has always been our plan to build the Gwinner workforce as we saw an increase in demand for our products."

Bobcat consolidated the majority of North Dakota manufacturing operations in Gwinner late last year as a result of decreased demand for products across the industry. All North American-produced machines are now being made in Gwinner, which was the original Melroe Manufacturing Company plant and home to the first production compact loader in 1958.

Bobcat offers a competitive pay and benefits package that includes a 401K match and pension plan. Working for the compact equipment leader has been more than just a "job" for thousands of individuals from the area, Goldsbury said.

"There is more than 50 years' worth of history in Gwinner, and over that time, people from the community and surrounding areas have helped build a legacy and had a good career while doing it."

The new hourly positions in Gwinner include assemblers, material handlers, welders and fabrication operators. The majority are available on the second shift, 3 to 11 p.m., and third shift, 11 p.m. to 7 a.m.

In addition to consolidating operations in Gwinner, Bobcat also moved a valves and cylinders operation to Wahpeton, 60 miles east of Gwinner, where 75 positions were filled earlier this year.

With the additional Gwinner jobs, Bobcat will employ more than 1,700 in North Dakota.

"We plan to continue with a pragmatic approach to adding positions," Goldsbury said. "At the beginning of the year we were cautiously optimistic, and now the demand for our products is growing."

For more information on the open jobs and to apply, individuals can visit www.bobcat.com/careers or contact any local North Dakota or South Dakota Job Service office, or Minnesota Workforce center.

Rebate check presented

Cass County Electric Cooperative presents first rebate check through the North Dakota Utility Rebate Program. Pictured are (left to right) Dan and Nancy Johnson, Horace who received the check from Jeremy Mahowald, CCEC's manager of energy management and conservation; and Brad Johnson of Precision Plumbing and Electric, Inc.

The Johnsons had a new air-source heat pump installed that qualified for the utility rebate program.

Public Notices

ADVERTISEMENT FOR BIDS

Notice is hereby given that the City Council of Hunter, North Dakota, having a post office address of PO Box 56 will meet at the City Hall at 201 Main Street, Hunter, ND 58048 at 10:00 a.m. on the 30th day of July, 2010 for the purpose of opening bids for the construction of Sanitary Sewer Relining Improvement District #2010-1 in accordance with the plans and specifications which are on file with the City Auditor of said City and Moore Engineering, Inc. Bids will be received until the above set forth time.

Digital project bidding documents will be available at www.mooreengineeringinc.com/bidinfo or www.questdn.com. You may download the complete set of digital documents for a non-refundable fee of \$20.00 by locating eBid-Doc™ #1248945 on the website. Please contact QuestCDN.com at 952-233-1632 or info@questdn.com for assistance in free membership registration, downloading and working with this digital project information. An optional paper set of project documents is also available for a non-refundable price of \$100.00 per set. Please make your check payable to Docunet Corporation and send it to 2435 Xenium Lane North, Plymouth, MN 55441. You may contact Docunet at 763-475-9600 if you have any questions.

The work includes the following approximate quantities:

- 2,985 L.F. Sanitary Sewer - 8" CIPP - Reline; 1,469 L.F. Sanitary Sewer - 10" CIPP - Reline; 6 Each Sanitary Sewer - Spot Repair; 15 L.F. Sanitary Sewer - Spot Repair Additional; 4.463 L.F. Telescoping; 340 S.Y. Asphalt - Remove; 340 S.Y. Subgrade Preparation; 340 S.Y. Geotextile Fabric; 340 S.Y. Gravel - NDDOT Class 5 - 6"; 340 S.Y. Asphalt Patch - 5"; 45 S.Y. Seeding; 1 L.Sum Lift Station Upgrade; 1 L. Sum Testing Allowance and other miscellaneous items.

Bids must show the total bid for all proposal quantities. Any contract award shall be on the basis of the amount of the total bid and shall be awarded to the lowest responsible bidder. One contract will be awarded.

Each bid must be accompanied by a separate envelope containing a bidder's bond in a sum equal to five percent of the full amount of the bid executed by the bidder as principal and by a surety, conditioned that if the principal's bid is accepted and a contract is awarded to the principal, the principal, within 10 days after notice of the award, shall execute a contract in accordance with the terms of the bid and a

contractor's bond as required by law. A countersignature of a bid bond is not required under that section. Each bidder must be licensed for the full amount of the bid. A copy of the contractor's license or certificate of renewal shall be in a separate envelope attached to the outside of the bidding document.

No bid may be read or considered if it does not fully comply with the requirements of Section 48-01.2-05 of the North Dakota Century Code and that any deficient bid submitted must be resealed and returned to the bidder immediately.

BIDDERS ON THIS WORK WILL BE REQUIRED TO COMPLY WITH TITLE 40 CFR 35.3145(D). THE REQUIREMENTS FOR BIDDERS AND CONTRACTORS UNDER THIS REGULATION CONCERN UTILIZATION OF MINORITY BUSINESS ENTERPRISES (MBE), WOMEN'S BUSINESS ENTERPRISES (WBE), AND SMALL BUSINESS ENTERPRISES (SBE) AND ARE EXPLAINED IN THE SPECIFICATIONS.

THE GOAL FOR MBE IS 1 PERCENT OF THE TOTAL DOLLAR VALUE OF THE PROJECT. THE GOAL FOR WBE IS 2 PERCENT OF THE TOTAL DOLLAR VALUE OF THE PROJECT.

BIDDERS MUST INCLUDE MBE/WBE SUBCONTRACTORS SOLICITATION INFORMATION WITH THE BID BOND ON THE OUTSIDE OF THE BID PROPOSAL.

BIDDERS ON THIS WORK WILL BE REQUIRED TO COMPLY WITH THE PRESIDENT'S EXECUTIVE ORDER NO. 11246, AS AMENDED. THE REQUIREMENTS FOR BIDDERS AND CONTRACTORS UNDER THIS ORDER ARE EXPLAINED IN THE SPECIFICATIONS.

The project will be funded under the Community Development Block Grant (CDBG) and Clean Water State Revolving Fund (CWSRF).

The work for said project shall be completed by October 29, 2010.

The City Council reserves the right to hold all bids for a period of thirty (30) days after the date fixed for the opening thereof, and to reject any or all bids and to waive any irregularities.

Dated this 7th day of July, 2010.
Patricia Martin
City Auditor
Hunter ND
(July 7, 14 and 21, 2010)

Kindred City Council

The Kindred City Council held their regular meeting July 7, 2010. Present were Mayor Clarke, Council members Schock, Grossnickle, Wanner and Wolf. Also attending were City Attorney Chris McShane, City Engineer Jon Wilczek, PWS Ken Blilie and City Auditor Twila Morrison. Guests were Arlen Blumer, Curt Kjonaae, Todd Bachmeier, Vern Williams, Joe Milton, Wes Robertsdahl, Greg Holder, Brad Jenison, Laura Hehn, Marlowe Rud, Kelly Perhus, Bob Young, Perry Morrison and Amanda Gades.

Meeting was called to order at 7:00 p.m. The following motions were made and carried unanimously unless otherwise recorded.

- To approve the minutes of June 2, 2010, June 9, 2010 and June 22, 2010.
- To approve the ND Dept. of Health contract.
- To approve the financials and unpaid bills of \$29,985.56.
- To accept P&Z recommendation to reduce ET by 1/2 mile.
- To have the mosquito spraying decision handled by the Mayor and to authorize the City Auditor to send a survey to citizens.
- To authorize the SRTS contract to Adelman Concrete & Excavating.
- To approve the Excess Increment Committee minutes of June 25, 2010.
- To have the City refer this issue of policy to a standing committee which will review, supervise and recommend a decision on this TIF policy now and in the future and that a committee be created by the Mayor by appointing a citizens committee. Motion died for lack of a second.
- To table this issue until a special meeting decided upon by the Mayor. Motion died for lack of a second.
- To move onto the next agenda item. Motion died for a lack of a second.
- To recommend the Non-Commercial TIF District Policy option B as presented. Mr. Wolf voted no.

Checks and bills approved:

- ABM, \$160.27; AFLAC, \$241.15; CCEC, \$675; CC Reporter, \$195.68; CC Treasurer, \$2,212.42;
- Cass Rural Water, \$5,915.72; CVS Flags, \$76.90; Dakota Hills Electric, \$5,189.00; Express Lane, \$244.11; Farm Plan, \$3.26;
- Ferguson Waterworks, \$112.00; G&K, \$52.34; Hawkins, \$5.00; KPH, \$8,000.00; KNDPA, \$127.50;
- ND League of Cities, \$668.00; ND One Call, \$16.90; Otter Tail, \$1,796.89; Ohnstad Twichell, \$4,006.92; Reardon, \$78.27;
- Road Runner, \$2.91; Rustads, \$125.00; Verizon, \$47.46; Wallwork Truck, \$9.22; Wangers, \$23.64.

Mayor Lunder, Mr. Wolf and Mr. Wanner all attended the Kindred Area Rural Recovery EDC meeting on June 29, 2010. No advance notice was given that a quorum of the city council would attend this meeting. Attached are the un-approved minutes of the EDC meeting.

ing held on June 29, 2010 prepared by EDC secretary, Mike Gustafson.

The meeting was adjourned at 10:55 p.m. The next regular Council meeting is August 4, 2010 at 7 p.m. at City Hall (Agenda deadline is noon Wednesday the week prior).

(Minutes subject to Council approval. Minutes summarized. Full detail available by request or at www.cityofkindrednd.com)

Twila Morrison
City Auditor

The Kindred Area Rural Recovery EDC Board held a meeting on June 29, 2010 in the Cass County Electric Cooperative Office, Kindred.

Board Minutes
At 6:30 p.m. President Dean Merhy opened the meeting by asking each board member and guests to introduce themselves so as to make sure that everyone could be familiar with the names and their current place of residence and business.

Frank Pearson gave a treasurer report, attached to these minutes. Mike Gustafson moved that the report be approved...it was seconded by Ray Otterson. The motion was approved.

Mark Ottis, a member of a local investment group was asked to lead a discussion about the potential of building a new restaurant in Kindred. Greg Holder, also a member of this group gave a detailed power point presentation. From this presentation the entire board and guests discussed the merits of a restaurant and Tracy Anderson from the Lake Agassiz Regional Council talked about various communities that have been involved in establishing such a project and concluded that surely one must ask that question, why can anyone not imagine Kindred not being able to support a restaurant? Therefore, the general conclusion was to recognize that this effort is exploratory at this time, but the clear interest showed that work on this project should continue. Examples of communities that have successful restaurants include: Tyler, Casselton, Battle Lake, Bowman and The Otter on Ottertail Lake, Minnesota.

Curt Leslie, a recently retired Vo Ag instructor at Kindred High School visited with the board and guests as to a potential manufacturing process to provide a much needed piece of equipment that enhances a handicap access to a pool or other special needs application in assisted living facilities or nursing homes. He referenced the intent of using local businesses in this venture and suggested that a trade show on the East Coast will give him and his partner some idea to how to proceed this fall.

Scott Handy, CEO of Cass County Electric Cooperative, briefed the board and guests the current status of the Headquarters facilities in Kindred and gave some background so as
